| PROJECT TITLE | Showroom Alterations, Shepton Mallet—1616 |
| CLIENT | JH Haskins & Sons Ltd |
| ARCHITECT | Ronald Shirley |
| CONTRACT VALUE | £448,552 |
| COMPLETION | 2017 |

The project is the remodelling of the existing Shepton Mallet Motors Honda franchise in Townsend, Shepton Mallet, to create a new showroom and reduced size workshop. The existing carwash and external features were demolished. A new forecourt comprising tarmac and re-used block pavements was constructed for the new showroom facing Townsend. Within the workshop new MOT facilities were created and equipment moved to allow showroom construction. A full height blockwork wall was built to divide showroom and workshop. Internal demolitions were carried out in the existing service reception including removal of first floor to accommodate showroom construction. External walls were removed and replaced with aluminium framed glazed screens and access doors. New heating and cooling provided by the installation of ceiling mounted air conditioning units. The existing boiler was replaced to supply existing and additional radiators. Ground floor offices and store and toilets were refurbished and new doors installed to comply with the Honda customer facing specification.

“Kept us almost fully operational throughout the six plus months that was a major boost, and special congratulations should go to the team 5*”
